SELECTED EXPERIENCE

Clariflow - Founder & Full-Stack Product Engineer

2026 – Present · Remote

TypeScript Next.js Supabase Vercel Capacitor Polar (Stripe) RevenueCat Figma Notion CMS

- **Full-Stack Web Architecture:** Engineered and deployed end-to-end web application on Vercel using Next.js, React, and TypeScript, with Supabase as the PostgreSQL database and auth layer.
- **Visual Identity & UI/UX Systems:** Directed complete brand identity and product design from wireframes to high-fidelity Figma prototypes; built responsive and full featured desktop and mobile experiences.
- **Mobile Client & Google Play Release:** Packaged and published mobile app using Android Studio (Capacitor) with native Google OAuth / Capgo social login, deep links, and optimized discoverability with Google Play Store release management (ASO).
- **Billing & Webhook Infrastructure:** Executed billing and payment channels using Polar.sh (powered by Stripe) for web subscriptions and RevenueCat for Google Play in-app purchases.
- **Growth Operations & Content CMS:** Designed a Notion-based CMS for content scheduling, performance stats feedback, and goal tracking; leveraged web crawling (Apify, Firecrawl) and lead generation tools (Explee) to drive targeted multi-channel campaigns (reels, statics, SEO/AEO/ASO).

Catabatics (Hydrotech Startup) - Creative Technologist

2026 · Contract

Brand Identity Figma Framer Illustrator InDesign Market Research

- **Brand & Visual Systems:** Developed logo direction, visual-system exploration, and presentation assets for a greenhouse-cooling hydrotech venture.
- **Web, Pitch & Copy:** Designed website and investor-facing materials in Figma, Framer, Illustrator, and InDesign; shaped hierarchy, narrative flow, and copy across web, pitch, and positioning.
- **Research & Venture Framing:** Assessed core technology assumptions, risks, and practical implications; conducted competitor and market-positioning research; refined product messaging around use case, audience, and differentiation.

Creative Freelance & Writing - Technologist & Writer

2016 – 2023

Blender 3D Cinema 4D Motion Graphics Creative Coding Technical Writing

- **3D & Digital Media:** Produced commissioned digital art, visual brand assets, motion design, and concept art using Blender 3D, Cinema 4D, After Effects, and Photoshop.
- **Creative Coding & Prototyping:** Built generative visual experiments and interactive browser prototypes using p5.js and Processing.js.
- **Academic & Technical Writing:** Delivered specialized research, academic ghost-writing, and editing for university students and professionals via Expwrite.com; maintained technical essay publications.
